

## Accelerating the College and Career Readiness of Idaho's Students

Idaho is in the process of transitioning to new English language arts and mathematics standards that will better prepare students to be successful in college and their careers. Time, effort, and resources must be dedicated to effective implementation in order to realize the promise of these new common core state standards.

### IN TODAY'S ECONOMY, ALL STUDENTS MUST GRADUATE FROM HIGH SCHOOL READY TO SUCCEED IN COLLEGE AND THEIR CAREERS

#### Percentage of Students Graduating from High School Class of 2007<sup>1</sup>

	Idaho	Nation
All Students	74%	69%
White	75%	76%
Hispanic	61%	55%
Black	65%	51%
Asian	+	79%
American Indian	43%	50%

+Insufficient or no data provided

### MORE STUDENTS NEED TO BE PREPARED FOR SUCCESS BEYOND HIGH SCHOOL

#### Percentage of ACT-Tested High School Graduates Ready For College-Level Course Work in 2010<sup>2</sup>

	Idaho	Nation
All Four Core Subjects	26%	24%
English	72%	66%
Math	47%	43%
Reading	60%	52%
Science	32%	29%

### IDAHO AND THE NATION NEED MORE COLLEGE GRADUATES

#### Idaho's College Graduation Rates Versus National Average<sup>3</sup>

	Four-Year Institution*	National Average*	Two-Year Institution**	National Average**
All Students	43%	56%	39%	31%
White	45%	59%	43%	32%
Hispanic	36%	46%	37%	29%
Black	21%	39%	25%	26%
Asian	40%	66%	40%	33%
American Indian	26%	38%	30%	27%

\*Graduation within six years of entrance (Cohort from 2002–2008)

\*\*Graduation within three years of entrance (Cohort from 2005–2008)

Students in Idaho who began college but did not return for a second year received a cumulative \$13.4 million in federal grants and a cumulative \$73.9 million in state expenditures.<sup>4</sup>

### HIGHER LEVELS OF COLLEGE AND CAREER READINESS EQUALS HIGHER EMPLOYMENT

**Bolster economic vitality:** Nearly 5,800 students did not graduate from Idaho's high schools in 2010; the lost lifetime earnings in Idaho for that class of dropouts total \$1.5 billion.<sup>6</sup>

### TO ACCELERATE COLLEGE AND CAREER READINESS, IDAHO TEACHERS SEE THE NEED FOR FEWER, CLEARER, AND BETTER STANDARDS

#### Impact of Improving Standards on Academic Achievement from Idaho's Teachers View<sup>7</sup>

	Clearer Academic Standards	Common Standards Across All States	Tougher Academic Standards	Fewer Academic Standards
Strong or Very Strong Effect	74%	54%	51%	27%
Moderate Effect	23%	34%	40%	35%
No Effect	3%	12%	9%	35%

### IDAHO DECIDED TO IMPROVE ITS STANDARDS TO SUPPORT COLLEGE AND CAREER READINESS AND IS WORKING ON IMPLEMENTATION OF COMMON CORE STATE STANDARDS

- Idaho was one of forty-eight states that participated in the creation of the common core state standards, which build on the best state standards and go further by internationally benchmarking and back-mapping them for grades K–12.
- As of April 2011, Idaho was one of forty-four states to have adopted the common core state standards in mathematics and English language arts.

### TO HAVE A CLEAR MEASURE OF COLLEGE AND CAREER READINESS, STATE ASSESSMENTS MUST ACCURATELY REFLECT STUDENT ACHIEVEMENT; CURRENT TESTS DO NOT

#### Idaho's Eighth-Grade Proficiency as Measured by Idaho State Tests and the National Assessment of Educational Progress (NAEP)<sup>8</sup>

	State	NAEP
Reading	92%	33%
Math	79%	38%

- The average gap nationally between state- and NAEP-reported reading scores is 41 percentage points. Idaho's gap is 59 percentage points.
- The average gap nationally between state- and NAEP-reported math scores is 32 percentage points. Idaho's gap is 41 percentage points.

### IDAHO IS ONE OF FORTY-FIVE STATES WORKING TO CREATE COMMON ASSESSMENT SYSTEMS ALIGNED TO COLLEGE- AND CAREER-READY STANDARDS

Two groups of states have formed to develop these next-generation assessment systems, scheduled to be available during the 2014–15 school year. Idaho is participating in Smarter Balanced Assessment Consortia. For more information, visit <http://www.k12.wa.us/smarter/>.

### CONSISTENT STANDARDS AND ASSESSMENTS MAKE COMMON AND ECONOMIC SENSE

- Ease transition for students who move from state to state.** In 2009, about 7,931 school-aged children moved to Idaho from another state; about 7,360 students moved from Idaho to another state.<sup>9</sup>
- Help states realize economies of scale and improve test quality by working together.** Currently, states spend a combined \$1.3 billion annually to develop, publish, administer, score, and report on their own state tests.<sup>10</sup>
- Reduce the need for remediation in college.** The need for remediation among students entering Idaho's postsecondary institutions unprepared for postsecondary work cost the state over \$12 million during the 2007–08 school year.<sup>11</sup>
