

## Accelerating the College and Career Readiness of Kansas' Students

Kansas is in the process of transitioning to new English language arts and mathematics standards that will better prepare students to be successful in college and their careers. Time, effort, and resources must be dedicated to effective implementation in order to realize the promise of these new common core state standards.

### IN TODAY'S ECONOMY, ALL STUDENTS MUST GRADUATE FROM HIGH SCHOOL READY TO SUCCEED IN COLLEGE AND THEIR CAREERS

#### Percentage of Students Graduating from High School Class of 2007<sup>1</sup>

	Kansas	Nation
All Students	75%	69%
White	79%	76%
Hispanic	56%	55%
Black	57%	51%
Asian	69%	79%
American Indian	50%	50%

### MORE STUDENTS NEED TO BE PREPARED FOR SUCCESS BEYOND HIGH SCHOOL

#### Percentage of ACT-Tested High School Graduates Ready For College-Level Course Work in 2010<sup>2</sup>

	Kansas	Nation
All Four Core Subjects	28%	24%
English	74%	66%
Math	51%	43%
Reading	60%	52%
Science	34%	29%

### KANSAS AND THE NATION NEED MORE COLLEGE GRADUATES

#### Kansas' College Graduation Rates Versus National Average<sup>3</sup>

	Four-Year Institution*	National Average*	Two-Year Institution**	National Average**
All Students	53%	56%	34%	31%
White	56%	59%	35%	32%
Hispanic	43%	46%	31%	29%
Black	29%	39%	20%	26%
Asian	48%	66%	22%	33%
American Indian	34%	38%	26%	27%

\*Graduation within six years of entrance (Cohort from 2002–2008)  
 \*\*Graduation within three years of entrance (Cohort from 2005–2008)

Students in Kansas who began college but did not return for a second year received a cumulative **\$14.2 million** in federal grants and a cumulative **\$93.6 million** in state expenditures.<sup>4</sup>

### HIGHER LEVELS OF COLLEGE AND CAREER READINESS EQUALS HIGHER EMPLOYMENT

**Bolster economic vitality:** Over **9,500** students did not graduate from Kansas' high schools in 2010; the lost lifetime earnings in Kansas for that class of dropouts total **\$2.5 billion**.<sup>6</sup>

### TO ACCELERATE COLLEGE AND CAREER READINESS, KANSAS TEACHERS SEE THE NEED FOR FEWER, CLEARER, AND BETTER STANDARDS

#### Impact of Improving Standards on Academic Achievement from Kansas' Teachers View<sup>7</sup>

	Clearer Academic Standards	Common Standards Across All States	Tougher Academic Standards	Fewer Academic Standards
Strong or Very Strong Effect	76%	60%	43%	32%
Moderate Effect	20%	29%	42%	40%
No Effect	4%	10%	13%	27%

### KANSAS DECIDED TO IMPROVE ITS STANDARDS TO SUPPORT COLLEGE AND CAREER READINESS AND IS WORKING ON IMPLEMENTATION OF COMMON CORE STATE STANDARDS

- Kansas was one of forty-eight states that participated in the creation of the common core state standards, which build on the best state standards and go further by internationally benchmarking and back-mapping them for grades K–12.
- As of April 2011, Kansas was one of forty-four states to have adopted the common core state standards in mathematics and English language arts.

### TO HAVE A CLEAR MEASURE OF COLLEGE AND CAREER READINESS, STATE ASSESSMENTS MUST ACCURATELY REFLECT STUDENT ACHIEVEMENT; CURRENT TESTS DO NOT

#### Kansas' Eighth-Grade Proficiency as Measured by Kansas State Tests and the National Assessment of Educational Progress (NAEP)<sup>8</sup>

	State	NAEP
Reading	85%	33%
Math	78%	39%

- The average gap nationally between state- and NAEP-reported reading scores is **41** percentage points. Kansas' gap is **52** percentage points.
- The average gap nationally between state- and NAEP-reported math scores is **32** percentage points. Kansas' gap is **39** percentage points.

### KANSAS IS ONE OF FORTY-FIVE STATES WORKING TO CREATE COMMON ASSESSMENT SYSTEMS ALIGNED TO COLLEGE- AND CAREER-READY STANDARDS

- Two groups of states have formed to develop these next-generation assessment systems, scheduled to be available during the 2014–15 school year. **Kansas is participating in Smarter Balanced Assessment Consortium**. For more information, visit <http://www.k12.wa.us/smarter/>.

### CONSISTENT STANDARDS AND ASSESSMENTS MAKE COMMON AND ECONOMIC SENSE

- **Ease transition for students who move from state to state.** In 2009, about **16,186** school-aged children moved **to** Kansas from another state; about **12,020** students moved **from** Kansas to another state.<sup>9</sup>
- **Help states realize economies of scale and improve test quality by working together.** Currently, states spend a combined **\$1.3 billion annually** to develop, publish, administer, score, and report on their own state tests.<sup>10</sup>
- **Reduce the need for remediation in college.** The need for remediation among students entering Kansas' postsecondary institutions unprepared for postsecondary work cost the state nearly **\$37 million** during the 2007–08 school year.<sup>11</sup>
