

Accelerating the College and Career Readiness of Maine's Students

Maine is in the process of transitioning to new English language arts and mathematics standards that will better prepare students to be successful in college and their careers. Time, effort, and resources must be dedicated to effective implementation in order to realize the promise of these new common core state standards.

IN TODAY'S ECONOMY, ALL STUDENTS MUST GRADUATE FROM HIGH SCHOOL READY TO SUCCEED IN COLLEGE AND THEIR CAREERS

Percentage of Students Graduating from High School Class of 2007¹

	Maine	Nation
All Students	78%	69%
White	77%	76%
Hispanic	+	55%
Black	67%	51%
Asian	+	79%
American Indian	41%	50%

+Insufficient or no data provided

MAINE AND THE NATION NEED MORE COLLEGE GRADUATES

By 2018, the nation will need to increase the number of postsecondary degrees conferred by about 10 percent annually in order to meet workforce demands.²

Maine's College Graduation Rates Versus National Average³

	Four-Year Institution*	National Average*	Two-Year Institution**	National Average**
All Students	57%	56%	27%	31%
White	56%	59%	28%	32%
Hispanic	66%	46%	32%	29%
Black	54%	39%	11%	26%
Asian	72%	66%	24%	33%
American Indian	38%	38%	18%	27%

*Graduation within six years of entrance (Cohort from 2002–2008)

**Graduation within three years of entrance (Cohort from 2005–2008)

Students in Maine who began college but did not return for a second year received a cumulative **\$9.1 million** in federal grants and a cumulative **\$37.4 million** in state expenditures.⁴

HIGHER LEVELS OF COLLEGE AND CAREER READINESS EQUALS HIGHER EMPLOYMENT

Bolster economic vitality: Nearly **3,600** students did not graduate from Maine's high schools in 2010; the lost lifetime earnings in Maine for that class of dropouts total **\$900 million**.⁶

TO ACCELERATE COLLEGE AND CAREER READINESS, MAINE TEACHERS SEE THE NEED FOR FEWER, CLEARER, AND BETTER STANDARDS

Impact of Improving Standards on Academic Achievement from Maine's Teachers View⁷

	Clearer Academic Standards	Common Standards Across All States	Tougher Academic Standards	Fewer Academic Standards
Strong or Very Strong Effect	77%	51%	42%	28%
Moderate Effect	22%	37%	42%	42%
No Effect	1%	12%	16%	29%

MAINE DECIDED TO IMPROVE ITS STANDARDS TO SUPPORT COLLEGE AND CAREER READINESS AND IS WORKING ON IMPLEMENTATION OF COMMON CORE STATE STANDARDS

- Maine was one of forty-eight states that participated in the creation of the common core state standards, which build on the best state standards and go further by internationally benchmarking and back-mapping them for grades K–12.
- As of April 2011, Maine was one of forty-four states to have adopted the common core state standards in mathematics and English language arts.

TO HAVE A CLEAR MEASURE OF COLLEGE AND CAREER READINESS, STATE ASSESSMENTS MUST ACCURATELY REFLECT STUDENT ACHIEVEMENT; CURRENT TESTS DO NOT

Maine's Eighth-Grade Proficiency as Measured by Maine State Tests and the National Assessment of Educational Progress (NAEP)⁸

	State	NAEP
Reading	71%	35%
Math	52%	35%

- The average gap nationally between state- and NAEP-reported reading scores is **41** percentage points. Maine's gap is **36** percentage points.
- The average gap nationally between state- and NAEP-reported math scores is **32** percentage points. Maine's gap is **17** percentage points.

MAINE IS ONE OF FORTY-FIVE STATES WORKING TO CREATE COMMON ASSESSMENT SYSTEMS ALIGNED TO COLLEGE- AND CAREER-READY STANDARDS

Two groups of states have formed to develop these next-generation assessment systems, scheduled to be available during the 2014–15 school year. **Maine is participating in Smarter Balanced Assessment Consortia.** For more information, visit <http://www.k12.wa.us/smarter/>.

CONSISTENT STANDARDS AND ASSESSMENTS MAKE COMMON AND ECONOMIC SENSE

- Ease transition for students who move from state to state.** In 2009, about **2,465** school-aged children moved **to** Maine from another state; about **3,804** students moved **from** Maine to another state.⁹
- Help states realize economies of scale and improve test quality by working together.** Currently, states spend a combined **\$1.3 billion** annually to develop, publish, administer, score, and report on their own state tests.¹⁰
- Reduce the need for remediation in college.** The need for remediation among students entering Maine's postsecondary institutions unprepared for postsecondary work cost the state nearly **\$13 million** during the 2007–08 school year.¹¹
