

Mississippi High Schools

DROPOUTS AND POORLY PREPARED STUDENTS NEGATIVELY AFFECT THE ECONOMY

- Over 15,700 students did not graduate from Mississippi's high schools in 2010; the lost lifetime earnings in Mississippi for that class of dropouts alone total nearly **\$4.1 billion**.¹
- Mississippi could save as much as **\$121 million** in health care costs over the lifetimes of each class of dropouts had they earned their diplomas.²
- If Mississippi's high schools graduated all of their students ready for college, the state could save as much as **\$37 million** a year in community college remediation costs and lost earnings.³
- Mississippi's economy could see a combination of crime-related savings and additional revenue of about **\$93.3 million** each year if the male high school graduation rate increased by just 5 percent.⁴

HIGH SCHOOL AND COLLEGE COMPLETION RATES NEED IMPROVEMENT

Mississippi High School Graduation Rates (Class of 2007)

State-Reported ⁵	U.S. Department of Education-Reported ⁶	Independently Reported ⁷
86%	64%	63%

Mississippi High School Graduation Rates by Race (Class of 2007)⁷

	Mississippi	Nation

American Indian	47%	38%	37%	27%

*Graduation within six years of entrance (Cohort from 2002–2008)

**Graduation within three years of entrance (Cohort from 2005–2008)

BUILDING AND USING COMPREHENSIVE STATE DATA SYSTEMS ARE CRITICAL TO DRIVING IMPROVEMENT

- Mississippi has in place **10 of the 10 elements** recommended by the Data Quality Campaign (DQC) as the start of a robust P–12 longitudinal data system. To date, only 12 states have all 10 elements in place.¹⁰
- Mississippi also has in place **1 of the 10 fundamental steps** recommended by the DQC in order to change the culture around how data is used to inform decisions on improving system and student performance. To date, no states have taken all of the fundamental steps.¹⁰

Visit <http://dataqualitycampaign.org/survey/states> for more information about which elements and actions Mississippi has in place.

LITERACY IS AN UNDERLYING PROBLEM FOR MANY

National Assessment of Educational Progress (NAEP) Reading Scores for Mississippi Eighth Graders in School Year (SY) 2008–09¹¹

Insufficient or no data was reported for other subgroups.

MOST STATE TESTS OVERESTIMATE STUDENT PROFICIENCY

Mississippi Eighth-Grade Proficiency as Measured by Mississippi State Tests and NAEP for SY 2008–09¹²

Nationwide, the average gaps between state- and NAEP-reported **reading** and **math** scores are **41 percentage points** and **32 percentage points**, respectively.

OVER THREE QUARTERS OF STATES HAVE ADOPTED COMMON CORE STATE STANDARDS

Mississippi is one of 48 states that participated in the development of common core state standards in English language arts and math. **It adopted the standards in June 2010.**

NEARLY HALF OF THE NATION'S DROPOUTS ARE CONCENTRATED IN LESS THAN 2,000 HIGH SCHOOLS

These high schools have an extremely low promoting power of 60 percent or less, meaning that only 60 percent or fewer of freshman progress to senior year on time. Promoting power is a good estimate of the school's graduation rate. Generally, these schools have high proportions of minority and/or low-income students.

	Number of Federally Reported High Schools ¹³ (SY 2007–08)	Number of High Schools with Low-Promoting-Power ¹⁴ (three-year average from 2006 to 2008)
Mississippi	189	37
Nation	15,675	1,883

An additional **94 high schools** in Mississippi have a promoting power between 60 and 70 percent.¹⁵

Over **one third** of the nation's low-promoting-power high schools were identified as making Adequate Yearly Progress during SY 2006–07.¹⁶
