

Accelerating the College and Career Readiness of Ohio's Students

Ohio is in the process of transitioning to new English language arts and mathematics standards that will better prepare students to be successful in college and their careers. Time, effort, and resources must be dedicated to effective implementation in order to realize the promise of these new common core state standards.

IN TODAY'S ECONOMY, ALL STUDENTS MUST GRADUATE FROM HIGH SCHOOL READY TO SUCCEED IN COLLEGE AND THEIR CAREERS

Percentage of Students Graduating from High School Class of 2007¹

	Ohio	Nation
All Students	75%	69%
White	80%	76%
Hispanic	46%	55%
Black	48%	51%
Asian	79%	79%
American Indian	55%	50%

MORE STUDENTS NEED TO BE PREPARED FOR SUCCESS BEYOND HIGH SCHOOL

Percentage of ACT-Tested High School Graduates Ready For College-Level Course Work in 2010²

	Ohio	Nation
All Four Core Subjects	28%	24%
English	72%	66%
Math	48%	43%
Reading	58%	52%
Science	34%	29%

OHIO AND THE NATION NEED MORE COLLEGE GRADUATES

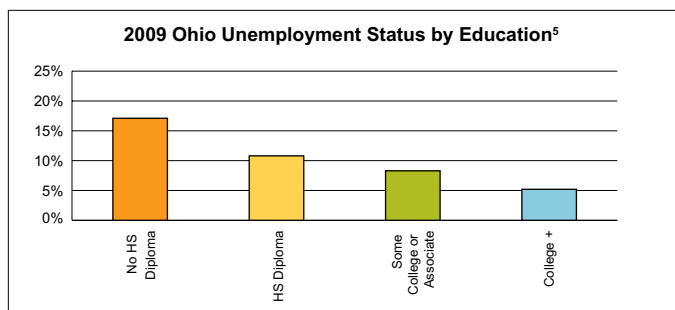

Ohio's College Graduation Rates Versus National Average³

	Four-Year Institution*	National Average*	Two-Year Institution**	National Average**
All Students	56%	56%	30%	31%
White	58%	59%	31%	32%
Hispanic	48%	46%	23%	29%
Black	33%	39%	30%	26%
Asian	67%	66%	38%	33%
American Indian	41%	38%	20%	27%

*Graduation within six years of entrance (Cohort from 2002–2008)
 **Graduation within three years of entrance (Cohort from 2005–2008)

Students in Ohio who began college but did not return for a second year received a cumulative **\$66.8 million** in federal grants and a cumulative **\$300.4 million** in state expenditures.⁴

HIGHER LEVELS OF COLLEGE AND CAREER READINESS EQUALS HIGHER EMPLOYMENT

Bolster economic vitality: Over **39,200** students did not graduate from Ohio's high schools in 2010; the lost lifetime earnings in Ohio for that class of dropouts total **\$10 billion**.⁶

TO ACCELERATE COLLEGE AND CAREER READINESS, OHIO TEACHERS SEE THE NEED FOR FEWER, CLEARER, AND BETTER STANDARDS

Impact of Improving Standards on Academic Achievement from Ohio's Teachers View⁷

	Clearer Academic Standards	Common Standards Across All States	Tougher Academic Standards	Fewer Academic Standards
Strong or Very Strong Effect	71%	57%	37%	40%
Moderate Effect	23%	32%	44%	35%
No Effect	6%	11%	18%	25%

OHIO DECIDED TO IMPROVE ITS STANDARDS TO SUPPORT COLLEGE AND CAREER READINESS AND IS WORKING ON IMPLEMENTATION OF COMMON CORE STATE STANDARDS

- Ohio was one of forty-eight states that participated in the creation of the common core state standards, which build on the best state standards and go further by internationally benchmarking and back-mapping them for grades K–12.
- As of April 2011, Ohio was one of forty-four states to have adopted the common core state standards in mathematics and English language arts.

TO HAVE A CLEAR MEASURE OF COLLEGE AND CAREER READINESS, STATE ASSESSMENTS MUST ACCURATELY REFLECT STUDENT ACHIEVEMENT; CURRENT TESTS DO NOT

Ohio's Eighth-Grade Proficiency as Measured by Ohio State Tests and the National Assessment of Educational Progress (NAEP)⁸

	State	NAEP
Reading	72%	37%
Math	71%	36%

- The average gap nationally between state- and NAEP-reported **reading** scores is **41** percentage points. Ohio's gap is **35** percentage points.
- The average gap nationally between state- and NAEP-reported **math** scores is **32** percentage points. Ohio's gap is **35** percentage points.

OHIO IS ONE OF FORTY-FIVE STATES WORKING TO CREATE COMMON ASSESSMENT SYSTEMS ALIGNED TO COLLEGE- AND CAREER-READY STANDARDS

Two groups of states have formed to develop these next-generation assessment systems, scheduled to be available during the 2014–15 school year. Ohio is participating in **Smarter Balanced Assessment Consortium** and **Partnership for Assessment of Readiness for College and Careers (PARCC)**. For more information, visit <http://www.k12.wa.us/smarter> and <http://www.achieve.org/PARCC/>.

CONSISTENT STANDARDS AND ASSESSMENTS MAKE COMMON AND ECONOMIC SENSE

- Ease transition for students who move from state to state.** In 2009, about **20,194** school-aged children moved **to** Ohio from another state; about **27,122** students moved **from** Ohio to another state.⁹
- Help states realize economies of scale and improve test quality by working together.** Currently, states spend a combined **\$1.3 billion** annually to develop, publish, administer, score, and report on their own state tests.¹⁰
- Reduce the need for remediation in college.** The need for remediation among students entering Ohio's postsecondary institutions unprepared for postsecondary work cost the state nearly **\$126 million** during the 2007–08 school year.¹¹
