

Online Learning: Addressing Challenges and Seizing Opportunities South Carolina

THE CHALLENGES

America's K–12 education system faces three significant challenges: (1) increased global demands for skilled workers, (2) significant financial shortfalls, and (3) a looming teacher shortage. Independently, these factors present significant challenges for U.S. schools. In combination, they create a national imperative for swift action to create a more innovative, effective, and efficient education system.

THE OPPORTUNITIES

Every day, creative educators are using technology better to meet the needs of students and teachers. Technology can no longer be considered an “add-on” tool in education, but rather one that is integral. Embracing online-learning opportunities for students and teachers will strengthen the supply and quality of teachers, improve efficiency, and increase students' college and career readiness.

CHALLENGE 1: GLOBAL SKILLS DEMANDS GROW FASTER THAN U.S. COLLEGE GRADUATION RATES

The global economy increasingly demands a skilled workforce. According to the Organisation for Economic Co-operation and Development (OECD), only 40 percent of Americans aged twenty-five to thirty-four have a two- or four-year college degree, ranking the United States tenth among industrialized nations. Boosting the supply of skilled workers and leading the world in postsecondary attainment will require greatly increasing current high school graduation rates and college completion rates (depicted below.)

High School Graduation Rate (Class of 2006) ¹		
	State-Reported	Independently Reported
South Carolina	74%	66%
United States	n/a	69%

College Completion Rates ²		
	Two-Year Institutions (Entered in 2005 and graduated within 3 years)	Four-Year Institutions (Entered in 2002 and graduated within 6 years)
South Carolina	14%	58%
United States	31%	56%

CHALLENGE 2: PROJECTED STATE DEFICITS INDICATE A PENDING FUNDING CLIFF

Local and state governments face continued declines in revenue. In many states, the 2008–09 recession has led to funding cuts or freezes for public education. Long-term forecasts predict that education funding will not return to former patterns forcing policymakers and educators to use scarce resources more effectively and efficiently to improve student outcomes.

According to the National Association of State Budget Officers, South Carolina's 2010 budget cuts totaled=

\$328 million⁴

including cuts to K–12 education.

CHALLENGE 3: THE LOOMING TEACHER SHORTAGE

Simply put, there are not enough highly skilled teachers to staff the nation's classrooms, let alone to accelerate improvements in achievement and attainment. Approximately one million teachers—almost one third of current teachers—are eligible to retire in the next five to seven years.⁵ Additionally, almost half of all new teachers leave the profession within five years of entering the classroom. The challenge is even more acute in difficult-to-staff subjects and in low-income and rural areas.

Percentage of South Carolina public school teachers aged 50 and up in School Year 2008–09 = **45%⁶**

This page summarizes information about (1) online-learning opportunities in South Carolina, (2) the presence of South Carolina state policies that support online learning, and (3) how federal policy supports online learning in South Carolina.

1. ONLINE-LEARNING OPPORTUNITIES

DO SOUTH CAROLINA'S STUDENTS AND TEACHERS HAVE ACCESS TO COMPUTERS AND THE INTERNET?

	SC	U.S.
STUDENTS PER HIGH-SPEED, INTERNET-CONNECTED COMPUTER (2006) ⁷	3.6	3.7
PERCENTAGE OF EIGHTH-GRADE STUDENTS WITH ACCESS TO COMPUTERS IN THEIR CLASSROOMS (2007) ⁷	90%	50%
PERCENTAGE OF INDIVIDUALS WITH ACCESS TO INTERNET AT HOME (2009) ⁸	63%	83%

DO SOUTH CAROLINA'S STUDENTS AND TEACHERS HAVE ACCESS TO ONLINE-LEARNING OPPORTUNITIES?

- **State virtual school:** South Carolina runs a state virtual school. In School Year 2008–09, South Carolina Virtual School Program had 12,976 course enrollments. Courses are available to students under the age of twenty-one. Under South Carolina law, students are limited to three online credits per year and twelve throughout high school.⁹
- **Other online programs:** As of fall 2009, five virtual charter schools served 4,532 students.⁹

2. STATE POLICY INFRASTRUCTURE

DOES SOUTH CAROLINA HAVE POLICIES THAT NURTURE ONLINE LEARNING FOR STUDENTS AND TEACHERS?

	SC	States with Policy
STUDENT STANDARDS INCLUDE TECHNOLOGY LITERACY ⁷	Yes	50
STUDENTS ARE TESTED ON TECHNOLOGY LITERACY ⁷	Yes	13
COMPUTER-BASED ASSESSMENTS IS OFFERED ⁷	Yes	26
INITIAL TEACHER-LICENSE REQUIREMENTS INCLUDE TECHNOLOGY ⁷	No	21
INITIAL PRINCIPAL-LICENSE REQUIREMENTS INCLUDE TECHNOLOGY ⁷	No	10

3. FEDERAL POLICY

DOES FEDERAL POLICY SUPPORT ONLINE-LEARNING OPPORTUNITIES IN SOUTH CAROLINA?

- Since Fiscal Year 2002, **South Carolina has received \$48 million** from the federal Enhancing Education Through Technology grant program to improve student outcomes through the use of technology such as improving teachers ability to use technology or improving online-learning opportunities.¹⁰
- **South Carolina is one of nine states** participating in e-Learning for Educators Initiative which is a federally funded program seeking to establish an effective and sustainable model of online professional development that will help address state-wide teacher-quality needs and have an impact on student achievement in eight partner states.¹¹
