

## Accelerating the College and Career Readiness of Wyoming's Students

Wyoming is in the process of transitioning to new English language arts and mathematics standards that will better prepare students to be successful in college and their careers. Time, effort, and resources must be dedicated to effective implementation in order to realize the promise of these new common core state standards.

### IN TODAY'S ECONOMY, ALL STUDENTS MUST GRADUATE FROM HIGH SCHOOL READY TO SUCCEED IN COLLEGE AND THEIR CAREERS

#### Percentage of Students Graduating from High School Class of 2007<sup>1</sup>

	Wyoming	Nation
All Students	73%	69%
White	74%	76%
Hispanic	60%	55%
Black	57%	51%
Asian	+	79%
American Indian	30%	50%

+Insufficient or no data provided

### MORE STUDENTS NEED TO BE PREPARED FOR SUCCESS BEYOND HIGH SCHOOL

#### Percentage of ACT-Tested High School Graduates Ready For College-Level Course Work in 2010<sup>2</sup>

	Wyoming	Nation
All Four Core Subjects	17%	24%
English	58%	66%
Math	34%	43%
Reading	45%	52%
Science	23%	29%

### WYOMING AND THE NATION NEED MORE COLLEGE GRADUATES

#### Wyoming's College Graduation Rates Versus National Average<sup>3</sup>

	Four-Year Institution*	National Average*	Two-Year Institution**	National Average**
All Students	53%	56%	60%	31%
White	53%	59%	62%	32%
Hispanic	44%	46%	58%	29%
Black	33%	39%	34%	26%
Asian	38%	66%	61%	33%
American Indian	25%	38%	39%	27%

\*Graduation within six years of entrance (Cohort from 2002–2008)

\*\*Graduation within three years of entrance (Cohort from 2005–2008)

Students in Wyoming who began college but did not return for a second year received a cumulative \$1 million in federal grants and a cumulative \$30.9 million in state expenditures.<sup>4</sup>

### HIGHER LEVELS OF COLLEGE AND CAREER READINESS EQUALS HIGHER EMPLOYMENT

**Bolster economic vitality:** Nearly 2,000 students did not graduate from Wyoming's high schools in 2010; the lost lifetime earnings in Wyoming for that class of dropouts total \$500 million.<sup>6</sup>

### TO ACCELERATE COLLEGE AND CAREER READINESS, WYOMING TEACHERS SEE THE NEED FOR FEWER, CLEARER, AND BETTER STANDARDS

#### Impact of Improving Standards on Academic Achievement from Wyoming's Teachers View<sup>7</sup>

	Clearer Academic Standards	Common Standards Across All States	Tougher Academic Standards	Fewer Academic Standards
Strong or Very Strong Effect	82%	54%	41%	34%
Moderate Effect	14%	33%	45%	38%
No Effect	4%	13%	12%	25%

### WYOMING DECIDED TO IMPROVE ITS STANDARDS TO SUPPORT COLLEGE AND CAREER READINESS AND IS WORKING ON IMPLEMENTATION OF COMMON CORE STATE STANDARDS

- Wyoming was one of forty-eight states that participated in the creation of the common core state standards, which build on the best state standards and go further by internationally benchmarking and back-mapping them for grades K–12.
- As of April 2011, Wyoming was one of forty-four states to have adopted the common core state standards in mathematics and English language arts.

### TO HAVE A CLEAR MEASURE OF COLLEGE AND CAREER READINESS, STATE ASSESSMENTS MUST ACCURATELY REFLECT STUDENT ACHIEVEMENT; CURRENT TESTS DO NOT

#### Wyoming's Eighth-Grade Proficiency as Measured by Wyoming State Tests and the National Assessment of Educational Progress (NAEP)<sup>8</sup>

	State	NAEP
Reading	65%	34%
Math	62%	35%

- The average gap nationally between state- and NAEP-reported reading scores is 41 percentage points. Wyoming's gap is 31 percentage points.
- The average gap nationally between state- and NAEP-reported math scores is 32 percentage points. Wyoming's gap is 27 percentage points.

### WYOMING IS ONE OF FORTY-FIVE STATES WORKING TO CREATE COMMON ASSESSMENT SYSTEMS ALIGNED TO COLLEGE- AND CAREER-READY STANDARDS

Two groups of states have formed to develop these next-generation assessment systems, scheduled to be available during the 2014–15 school year. Wyoming is participating in Smarter Balanced Assessment Consortia. For more information, visit <http://www.k12.wa.us/smarter/>.

### CONSISTENT STANDARDS AND ASSESSMENTS MAKE COMMON AND ECONOMIC SENSE

- Ease transition for students who move from state to state.** In 2009, about 4,375 school-aged children moved to Wyoming from another state; about 4,754 students moved from Wyoming to another state.<sup>9</sup>
- Help states realize economies of scale and improve test quality by working together.** Currently, states spend a combined \$1.3 billion annually to develop, publish, administer, score, and report on their own state tests.<sup>10</sup>
- Reduce the need for remediation in college.** The need for remediation among students entering Wyoming's postsecondary institutions unprepared for postsecondary work cost the state over \$8.5 million during the 2007–08 school year.<sup>11</sup>
